

Become a partner of the

Chicago
Manufacturing
Renaissance
Council

Help us make Chicago the Global Leader in Advanced Manufacturing

The Chicago Manufacturing Renaissance Council (CMRC) invites your organization or company to join the coalition of business, labor, government, education, and community representatives leading the way in the race to the top.

“ The CMRC is a serious partnership focused on creating an industry-driven education pipeline for advanced manufacturing. It represents our best chance to build a solid foundation for advanced manufacturers for years to come. ”

Sandra Westlund-Deenihan

President, Quality Float Works

Chair, CMRC West Suburban Chapter

Demonstrate your support for advanced manufacturing by joining a network that:

-  Unites a diverse group of stakeholders in support of critical policy issues that bolster the advanced manufacturing industry as well as our economy as a whole.
-  Works to solve our workforce issues by strengthening educational programs and by creating a pipeline of skilled workers for the keystone manufacturing industry.
-  Created Austin Polytechnical Academy, a manufacturing high school on Chicago's West Side. Austin Polytech has been highlighted by President Obama as a national model for education.
-  Helped create ManufacturingWorks, a demand-driven recruitment and training program that links skilled workers with rewarding jobs in manufacturing.

CMRC partners will enjoy access to partners-only events, recognition on our website and newsletter, and the opportunity to bring their expertise to our campaign for a robust advanced manufacturing industry.

For more information, please visit our website at ChicagoManufacturing.org or contact Dan Bianchi at dbianchi@clcr.org or (773) 278-5418 x28.
